Subject: Application for the post of Lecturer (CSE).

Dear Sir,

I am writing to express my interest in the position of lecturer in CSE at your university, as advertised on the university's website. I recently completed my B.Sc. in Computer Science and Engineering from the Bangladesh University of Business and Technology with a **CGPA of 3.79**. Throughout my academic journey, I have acquired a comprehensive understanding of theoretical foundations and practical applications. My thesis, "**Human Activity Recognition using Deep Learning Approach**", has received accolades for its originality and contribution to the field.

In addition to my academic achievements, I have gained valuable teaching experience by working as a **Teaching assistant** since January 19, 2023, in the department of CSE at the Bangladesh University of Business and Technology (BUBT). This experience honed my teaching abilities and provided me with valuable hands-on experience in classroom management, curriculum development, and student assessment. I have also developed strong programming skills through my academic coursework and research. I am proficient in languages such as Python and C++ and have hands-on experience with various frameworks and tools commonly used in the field of computer science.

Please take into consideration my application for the position of lecturer at your university. The attached copy of my resume will give you further information about my skills and expertise.

Your Sincerely

Habibullah

Teaching Assistant
